WHERE WE FIRST MET

BY CLASTE COLLECTION

A hand-crafted slab of marble or onyx is suspended between 3 panes of glass to create this remarkable bench which emphasizes both the beauty of the stone and the delicate yet deceptive strength of the transparent legs. Every slab is structured by hand by master craftsmen to achieve a level of strength which allows this bench to reach lengths of up to five feet without any central supports.

Dimensions

60"x18.75"x22"

Material Options

Available in a selection of marble or onyx options.
Ultra-Clear or Bronze Glass
