

## WOODDROP

**MADE BY BY SKRAM**

Wooddrop is a stool/side table constructed of locally harvested, salvaged timber. The design juxtaposes rigid geometry with the 'perfectly imperfect' cracks and checks that form as large pieces of timber naturally dry.

### **Dimensions**

D06: W12"/30cm Diameter x H16"/41cm

### **Material Options**

Available in a selection natural timber materials.  
Custom options are available.
