

LEDGE CONSOLE

62/72/84

simon johns

Dimensions

62/72/84" L x 14" D x 25" H

Materials & Construction

Ash and Glass

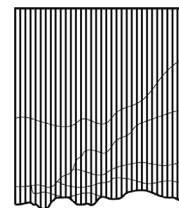

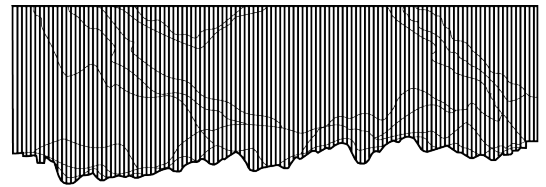

The facade of this piece wraps around to the sides, and the center opens up as two doors, to reveal a functional cabinet. Due to the hand carved facade, no two pieces are quite the same.

Description

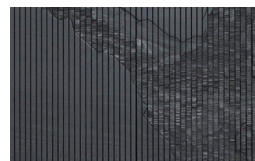

Ledge is a floating console, mounted to the wall, in solid ash with a black glass top. It stems from material exploration inspired by cliffs around the studio, making solid ash reference crumbling stone through a unique technique.
